

## **Details:**

One day conference

The Geological Society, Burlington House, Piccadilly, London. W1J 0BG

Thursday 2<sup>nd</sup> October 2014

Registration is required and will close on Thursday 25<sup>th</sup> September 2014

£85 for fellows £95 for non fellows £50 for students

Registration from 08.45 Welcome at 09.05 Close at 17.00

**Event Convenors:** 

lan Duncan (Mott MacDonald)

Francesca Ryan (Atkins)

## Advances in Geological/Geotechnical Data Handling and Modelling

The Engineering Group of the Geological Society invites you to attend a one day conference that endeavours to explore advances in geological and geotechnical data handling and modelling.

Speakers from leading consultants, ground investigation contractors, Client Organisations and research institutes will present different techniques and case studies, whilst looking to the future and considering the overall benefits. The day will be split into four parts, encouraging themed discussion in this ever progressing field:

- 1. Data gathering in the field / remote monitoring
- 2. Data transfer, storage and collaborative sharing
- 3. Turning data into information geological modelling
- 4. Industry benefits and future work

Presentations will appeal to a wide audience identifying the vast applicability of data handling and modelling techniques. Topics include rail, natural hazards, offshore, tunnelling, risk and financial implications.

Geological modelling for tunnel construction in Norway

## **Registration details:**

To register for the conference please contact: Georgina Worrall, Conference Office Manger, The Geological Society. Email: georgina.worrall@geolsoc.org.uk Tel: 0207 432 0982 Fax: 0207 494 0579

For further information, please contact: Event Convenors: Ian Duncan or Francesca Ryan

Ian Duncan or Francesca Ryan Email:<u>ian.duncan@mottmac.com</u> <u>francesca.ryan@atkinsglobal.com</u> Tel: 0117 906 9514 (Ian)
